

# SPRING 2024 CALL FOR PROPOSALS APPLICANT GUIDE

Manitoba Climate and Green Plan Initiatives  
delivered by Manitoba Habitat Conservancy

# SPRING 2024 CALL FOR PROPOSALS APPLICANT GUIDE

The Spring 2024 Applicant Guide provides detailed instructions to facilitate the completion of your online Trust application. This document accompanies the Spring 2024 Guidelines. Each document contains unique information to assist you in the submission of your proposal.

The Applicant Guide is composed of **Part 1 - The Conservation Trust** and **Part 2 - GROW Trust**. Each part is broken down into sections that mirror the online application questions and have been color coded for ease of navigation. The sections also include additional insights and examples. Ensure the document Part you are referencing matches the Trust you are applying to.

Each Part also contains:

- Application Sections
- A Before You Submit section
- Notification and Reporting Requirements

# TABLE OF CONTENTS

## **PART 1: CONSERVATION TRUST 2**

Section 1: General Proposal Information	3
Section 2: Previous Trust Project Status	3
Section 3: Executive Summary	3
Section 4: Detailed Proposal Description	5
Section 5: Additional Proposal Information	14
Section 6: Attachments	15
Before You Submit	16
Notification and Reporting Requirements	16
CT Objective Example Tables	17

## **PART 2: GROW TRUST 18**

Section 1: General Proposal Information	19
Section 2: Previous GROW Trust History	19
Section 3: Executive Summary	20
Section 4: Wetlands GROW Trust	21
Section 5: Annual Incentive Payments	21
Section 6: Detailed Proposal Description	22
Section 7: Additional Proposal Information	31
Section 8: Attachments	32
Before You Submit	33
Notification and Reporting Requirements	34

# PART 1:

# THE CONSERVATION TRUST

## SECTION 1: GENERAL PROPOSAL INFORMATION

### **Proposal Title**

The project title from your approved Letter of Interest (LOI) will be copied over automatically. It is used to track your proposal throughout the granting cycle.

### **Proposal ID Number**

This is a unique project ID assigned by Trust staff.

### **Primary Contact**

Identify the name, title, email address, and phone number of the person who will lead this project and will be the primary contact for communication purposes. This person's information should be listed in the Organizational Registration Form.

### **Proposal Author**

Identify the name of the proposal author(s), if different from the Primary Contact.

## SECTION 2: PREVIOUS TRUST PROJECT STATUS

### **Previous Project(s) Status**

Do you have any previously funded projects that are delayed? If yes, please provide more information.

## SECTION 3: EXECUTIVE SUMMARY

### **Conservation Trust Project Category**

The Conservation Trust Project Category from your approved Letter of Interest (LOI) will be copied over automatically.

### **Ecological Goods and Services Outcomes**

Please select the EG&S outcomes addressed by your project. EG&S from your approved LOI will be copied over automatically.

1. Improved water quality
2. Flood mitigation
3. Improved drought resilience
4. Increased biodiversity
5. Increased production of harvestable wildlife species
6. Enhanced carbon sequestration
7. Increased soil health
8. Increased public access to nature
9. Interpretive programs delivered in natural areas
10. Activities that enhance a recognized greenway or equivalent natural area

## Duration

Select the number of years it will take to complete the project.

## Project Location

If known at this stage, provide a one-line description of the project location, for example:

- The nearest town or other known feature
- Municipality
- First Nation
- Watershed District

If your project will span multiple locations, please indicate the closest region in Manitoba.

## Brief Proposal Description

Manitoba Habitat Conservancy (MHC) will use this description for communication purposes. Describe what your proposal will accomplish, including the total of the Trust and match funded estimated outputs (e.g. 500 acres restored), in 3 sentences or less. For Connecting People to Nature be sure to include the total number of people impacted e.g. annual visitors anticipated to attend/utilize the project site, attend workshops etc. in the Brief Proposal Description

*Note: If your project is successful, you may need to revise this description to reflect any changes in Activities or Objectives.*

## Total Trust Project Request

Enter the funding amount requested from the Conservation Trust.

## Total Match Funds

Enter the total amount of matching funds, including cash and in-kind contributions.

- The overall objective is a minimum match ratio of 2:1
- 50% of total project costs must be from non-provincial government sources

*Note: If your match ratio is lower than 2:1, you may still apply; however, please note that the amount of available match is a factor in ranking the proposal. If you are having trouble meeting match requirements it is recommended that you contact your designated Grants Associate. Trust granted funds cannot be used as match for grant applications to the Trust. Other sources of matching funds that have been or will be used in full cannot be assigned to more than one Trust project.*

## Total Project Budget (including match)

Enter the amount of the total project budget.

(Total Project Budget = Total Trust Project Request + Total Match Funds)

## SECTION 4: DETAILED PROPOSAL DESCRIPTION

### Management Plan

Is this proposal being delivered in the context of a larger management plan (conservation, watershed, or resource management plan)? If yes, please briefly identify the plan's: goal, objective, and specific action items that will be addressed by the proposed project (bulleted list preferred).

### Background

Please explain important aspects of the proposed project including:

- The issue(s) or challenge(s) to be addressed
- The urgency/priority
- The risk of loss/conversion
- Any relevant justification that supports your proposal. This may include: scientific evidence, literature reviews, local expert and/or Indigenous Knowledge, etc.

*Note: Ensure you describe how the project addresses each of the EG&S selected.*

### Objectives

What are your Objectives, and how will your proposal address the issue(s) or challenge(s) identified above?

Objectives describe the specific, measurable ways you will address the conservation issue identified. Objectives are important because they are the basis for the activities and evaluation of your project. Write one or two objectives for each major part of the project, problem, or need committed to in the issue statement. Objectives are not a list of the activities you will be doing.

#### Each objective should:

- Describe how your project will address the conservation issue you have identified or what you want to accomplish
- State the changes you want to see as a result of the project
- Describe the steps that you need to take to reach the project results

#### When describing objectives:

- They are S.M.A.R.T. - specific, measurable, achievable, relevant and time-bound

*See CT Objective Example Tables on page 17 for how to write SMART objectives*

### Table Package:

Please contact your Grants Associate with any questions, including how your proposed activities fit into the standardized Activity Categories.

#### Table Package Guide:

**Step 1:** Download the Spring 2024 Table Package, which includes the following tables:

Table A. Project Information

Table B. Project Budget

Table C. Project Workplan

Table D. Project Outputs

The Table Package is linked in the online application form or can be found on the MHC website, linked [here](#).

**Step 2:** Fill out table templates with the required information and once complete upload a copy as an Excel document in the online application form.

*Note: MHC recommends that the applicant save a backup copy of the Table Package.*

The following section provides detailed instructions for each table within the Table Package

### TABLE A: PROJECT INFORMATION

This table states general project information and provides broad suggestions regarding the use of tables.

#### Project Information Guide:

*Step 1:* Organization Name

*Step 2:* Project Name

*Step 3:* Project Start Date

*Step 4:* Project End Date

### TABLE B: PROJECT BUDGET

The Project Budget identifies the total projected costs to successfully complete the project. A strong budget will consider both costs associated with establishing project activities (i.e., Material & Supplies, Construction Services, etc.), as well as the cost required to deliver the project (i.e., Salaries & Benefits, Administration & Overhead, etc.).

#### *Match Funds*

For general information regarding Match, including Trust definitions, examples, as well as ineligible sources and activities, see the Trusts - Spring 2024 Guidelines [here](#).

- Match includes both Cash Match (costs with a financial transaction) and In-kind Match (costs with non-financial transactions)
- The overall objective for the Trusts is a total match ratio (cash and in-kind) of 2:1
- No more than 50% of matching funds can be from provincial government sources
- Match funds may be received up to one fiscal year prior to the proposed start date, e.g. April 1st 2023
- For Audit purposes MHC requires Grantees (applicants who receive Trust funding) to keep a record of both cash and in-kind match in a similar respect they do Trust expenditures. See the Tools for Grantees section on the MHC website for examples of in-kind tracking forms

The Budget template is composed of Section A: Funding Sources, where all contributors to the project's revenue are listed and, Section B: Budget Categories, where all project expenditures are categorized. Please do not change or adjust the existing formulas.

#### Section A: Funding Sources

*Step 1:* Provide a comprehensive list of project funding sources

*Step 2:* Indicate whether the funding is from the Manitoba Provincial Government

- MHC considers [Sustainable Canadian Agricultural Partnership/Ag Action](#) funding as 50% Provincial and 50% Federal
- For Watershed Districts providing their own match, do not list this as Provincial funding

*Step 3:* Indicate whether the funding is cash or in-kind by placing them in the corresponding column

*Step 4:* Indicate whether the funding is confirmed or pending

*Step 5:* Review Total Project Revenue and Total Match are correct

## Section B: Budget Categories

The Project Budget categories are divided into Direct Project Costs, Delivery Costs and Other Costs.

**Step 1:** Allocate project expenses to the applicable categories. See details below for budget category descriptions

**Step 2:** Ensure that:

- Project Total Cost equals the Total Project Revenue in Section A
- Total Trust Request equals the Trust Amount in Section A

### **Budget Categories - Direct Project Costs:**

Direct Project Costs are capital and associated expenses that are direct costs required to complete the project. These may be Trust or match expenditures.

Budget Category	Description
Materials & Supplies	Costs associated with construction, delivery, or establishment of the project such as seed, fertilizer, fencing, trees, etc.
Construction Services	Costs such as contractors or equipment operators (including equipment)
Equipment Rental	Costs such as machinery rental and rental of equipment owned by the applicant organization that is being expensed to the project
Consulting/Professional Services	Costs such as consultants and legal fees
Acquiring Interest in Land (Match Only)	Include conservation agreements/easements and land acquisition. Land purchase costs may be included as cash or in-kind match within eligible match timeframe/window
<b>Landowners:</b>	
Landowner Establishment Costs	Costs that are borne by landowners, such as a purchase of seed, fertilizer, use of farm equipment, or labour, for which offsetting payments may be made by the grantee or may be included as landowner match
Landowners Incentive Payments	Direct payments to landowners to encourage them to take part in projects that are expected to result in a loss of future income-generating potential from the land affected (e.g., cultivated land flooded by a wetland restoration). These payments are outlined in a contract between the Grantee and the incentive payment recipient

**Capital Expenditures/Equipment Purchases over \$5,000 (Trust related expenses only):** Please list and describe any equipment purchase greater than \$5,000 in the Budget Notes text box of the Project Budget. This refers to items with a per unit cost greater than \$5,000, not multiple, lower cost items whose total is greater than the threshold. Make sure to include these items in the appropriate budget cost category. For any questions regarding this, or any other Trust policy, contact your Grants Associate for support.

### **Budget Categories - Delivery Costs**

Delivery Costs are the costs related to the management and delivery of the project.

Budget Category	Description
Salaries & Benefits or Day Rate:	The cost of staff that are tied to the project
Travel & Field Costs:	Vehicle, accommodations, and meals based on 2023 Manitoba Government reimbursement rates which can be found on pages 65-71, <a href="#">here</a>
Administration & Overhead:	Applicants can identify overhead and/or administration fees that are related to project delivery. These may be match funds. All applicants are encouraged to minimize requests for administration fees. Examples of Administration & Overhead costs include Board expenses or charitable ArcGIS licenses

<b>Communications</b>	Applicants can include communication activities that are related to project delivery. Examples include radio, TV ads, social media, newspaper and magazine advertisements, and flyers, etc. Should not be calculated as part of a day rate
-----------------------	--

**Budget Categories - Other**

The Other Costs category is to be utilized only in the unique situation that a particular expense does not fit into any of the other available options. If you believe you may require use of this category it is recommended to discuss this with your Grants Associate.

**Additional considerations for budget and budget table execution:**

- Ensure budget details, such as Total Project Revenue, match those specified in the body of the application
- If you are considering including incentive payments to landowners, please contact your Grants Associate

**TABLE C: PROJECT WORKPLAN**

The Project Workplan documents all project activities and project outputs, as well as details their related cost estimates.

**Note: Salaries and Benefits, Travel and Field Costs, and Administration and Overhead costs to be included in the cost of each activity and not a stand-alone item. Communications should be identified in its own line.**

**Step 1:** Select the Activity Category option which best represents the output that will result from your proposed activity. Activity Category options are broken into two sections Section A. Landscape Activities and Section B. Additional Activities (those typically associated with CPN projects). For a list of Activity Categories, see page(s) 9-13.

**Step 2:** Select the Activity Description/BMPs which depicts the specific activity that will achieve the Activity Category outcome. For example, if the project is enhancing grasslands through shrub mowing (1) select "Grassland Enhancement" under Activity Category, (2) select "Shrub Control via Mowing or Herbicide" under Activity Description/BMPs. For a list of Activity Descriptions/BMPs see page(s) 9-13.

**Step 3:** Manually enter the Detailed Description of each activity. This should include specific information that may set your project apart from other similar projects, potentially increasing the competitiveness of your proposed activity. An example of this would be if your project is doing a grassland restoration, what type of native grassland you expect to restore (e.g., Tall-grass Prairie, Mixed-grass Prairie) and any additional activities you are undertaking during the restoration process to ensure its success (i.e., weed maintenance).

If your activity relies on infrastructure such as, fencing, off-site watering systems, livestock crossings, etc., be sure to provide the details (including metrics such as km of fencing) in the Detailed Description.

**Note: Due to the increased emphasis on the Project Workplan there is no longer an expectation that the applicant restates this information in the narrative of the application. If outstanding details remain that you would like to share, please enter these in the Additional Information question of the application.**

**Step 4:** Identify the number of Trust Funded Outputs (e.g. "50" acres of wetlands restored). Note, these outputs will auto-populate the Project Output table. For a list of the required metrics see pages 9-13.

**Step 5:** Identify the number of Match Funded Outputs (e.g. "75" acres of wetlands restored). Note, like the Trust Funded Outputs, the Match Funded Outputs will also auto-populate the Project Output table.

**Step 6:** Identify the term length of the conservation contract you will sign with the landowner. For example, 10-year term contracts for grassland restoration projects. This is only applicable to Landscape Activities.

If working on previously conserved lands (e.g. grassland enhancement occurring on organizational-owned land or habitat conserved through conservation easements/agreements), please clarify this in the Detailed Description column.

**Step 7:** Identify the cost-share of the payment to the landowner vs the landowner contribution. For example, 50:50 cost-share ratio for off-site water system installation. Consider adding other relevant details about the cost-share, such as the maximum funded amount. This is only applicable to Landscape Activities.

**Step 8:** Manually enter the Estimated Amount of Total Project Budget that is required to accomplish the activity.

**Step 9:** Estimated % of Total Project Budget: This column auto-calculates.

**Step 10:** Manually enter the Estimated Amount of Total Project Budget that is required to accomplish the activity.

**Step 11:** Estimated % of Total Trust Request: This column auto-calculates.

**Additional considerations for budget and budget table execution:**

- If you require additional rows in the Workplan, **do not insert from the last row**. Instead, select a row from closer to the center to ensure auto-calculations work properly. If an error occurs, reach out to your Grants Associate for assistance.

**WORKPLAN ACTIVITY CATEGORY & DESCRIPTION/BMPS – REFERENCE LIST**

**Section A: Landscape Activities**

Activity Category	Activity Description/BMPS	Metric
Cover Crops	Multi Species	Acres
	Single Species	Acres

**Cover Cropping:** If your project includes cover cropping, identify (in the Detailed Description of the Project Workplan) if Trust funded cover cropping acres are with producers new to the practice. Additionally, clarify the type of cover crop e.g. full season or shoulder season cover crops.

Activity Category	Activity Description/BMPS	Metric
Erosion Control	Bank Stabilization (Riprap and other hardscape)	Acres
	Other	Acres

**Erosion Control:** This option is to be utilized when the erosion control site does not include any vegetation. It is only to be used for hardscape type erosion control. If vegetation activities are also occurring in conjunction with the hardscape enter the activity as Riparian Restoration instead of Erosion Control.

Activity Category	Activity Description/BMPs	Metric
<b>Grassland Conservation</b>	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
<b>Grassland Enhancement</b>	Bufferstrips	Acres
	Delayed Grazing	Acres
	Delayed Haying/Mowing	Acres
	Grazing Management System (Fencing, off-site watering system, new water source development)	Acres
	Grazing Management System (Livestock Crossing)	Acres
	Invasive Species Control (Match Only)	Acres
	Pasture Improvement	Acres
	Pollinator Habitat	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Shrub Control Via Mowing Or Herbicide	Acres
Other	Acres	
<b>Grassland Restoration</b>	Bufferstrips	Acres
	Native Restoration	Acres
	Pollinator Habitat	Acres
	Tame Restoration	Acres
	Other	Acres

**Grassland Enhancement through Grazing Management Systems:** In the Detailed Description provide details of which infrastructure (Fencing, Offsite Watering System, Livestock Crossing, New Water Source Development), or combination of, you are utilizing to achieve the Output. Ensure to include anticipated infrastructure metrics, such as km of fencing, or number of offsite watering systems to be installed.

**Species at Risk (SAR) Related BMPs:** In the Detailed Description, be sure to provide additional information regarding the SAR which are being targeted and the methods to be utilized.

Activity Category	Activity Description/BMPs	Metric
<b>Riparian Conservation</b>	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
<b>Riparian Enhancement</b>	Cattle Exclusion (Fencing and/or Off-Site Watering System)	Acres
	Grassed Waterways	Acres
	Invasive Species Control (Match Only)	Acres
	Livestock Crossing	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
Other	Acres	
<b>Riparian Restoration</b>	N/A	Acres

Activity Category	Activity Description/BMPs	Metric
Shelterbelt Establishment	N/A	Kilometres
Shelterbelt Enhancement	N/A	Kilometres

**Shelterbelt Establishment:** If known, include the number of rows being established in the Detailed Description.

**Shelterbelt Enhancement:** In the Detailed Description include the method(s) of enhancement and the number of trees being planted, if applicable.

Activity Category	Activity Description/BMPs	Metric
Water Retention	Extended	Acre Feet
	Permanent	Acre Feet
	Temporary	Acre Feet

**Water Retention:** If known, add the number of basins and acres in the Detailed Project Description.

**Extended:** Generally, retains water for an extended period of time after spring melt or a large rain event but may be partially or fully drained by late spring or early summer. Includes the added benefit of nutrient retention.

**Permanent:** Designed to drain only above full supply levels but may include overflow spillway. Can hold permanent water throughout the growing season. Includes the added benefits of nutrient retention, drought mitigation and groundwater recharge.

**Temporary:** Holds water for a short period of time after spring melt or a large rain event, for the primary purpose of flood water mitigation.

Activity Category	Activity Description/BMPs	Metric
Wetland Conservation	Other Wetlands Conserved Through Incentive Payments	Acres
	Temporary Wetlands Conserved Through Incentive Payments	Acres
	Wetlands Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
Wetland Enhancement	Cattle Exclusion (Fencing and/or Off-Site Watering System)	Acres
	Invasive Species Control (Match Only)	Acres
	Nest Tunnels Installation	Acres
	Nest Tunnels Maintenance	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Other	Acres
Wetland Restoration	N/A	Acres

Activity Category	Activity Description/BMPs	Metric
<b>Wooded Conservation</b>	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
<b>Wooded Enhancement</b>	Shelterbelts	Acres
	Invasive Species Control (Match Only)	Acres
	Pollinator Habitat	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Shrub Control Via Mowing Or Herbicide	Acres
	Other	Acres
<b>Wooded Restoration</b>	Bufferstrips	Acres
	Pollinator Habitat	Acres
	Woodland	Acres
	Other	Acres

**Shelterbelt Conservation and Restoration:** If the project is conserving/restoring an already existing and established shelterbelt, include these acres (not km like shelterbelt establishment or enhancement) under Wooded Conservation or Restoration.

*Note: Activity Description/BMP – Other: This selection is to be utilized when the other selections offered do not properly represent the activities proposed. If selecting this option, ensure sufficient detail is manually entered in the Detailed Description column.*

**Section B: Additional Activities**

Activity Category	Activity Description/BMPs	Metric
<b>Communications</b>	Broadcast Media	Number of People Reached
	Internet Media	Number of People Reached
	Print Media	Number of People Reached
	Other	Number of People Reached

**Broadcast Media:** This category includes radio, TV ads and podcasts. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

**Internet Media:** This category includes social media, web pages and email blasts. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

**Print Media:** This category includes newspaper and magazine articles, brochures, flyers, etc. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

Activity Category	Activity Description/BMPs	Metric
<b>Communications General</b>	N/A	Number of People Reached

**Communication General:** this selection is to be utilized when the applicant does not yet have specific details regarding the type of communications they will undertake. If selecting this option, N/A will be selected for the Activity Description/ BMP column and any known details should be manually entered in the Detailed Description column.

Activity Category	Activity Description/BMPs	Metric
Connecting People to Nature Infrastructure	Boardwalk	Metres
	Boat Launch	Number
	Dock	Number
	Kiosk	Number
	Interpretive Signage	Number
	Trail Creation	Kilometres
	Trail Enhancement	Kilometres
	Other	

**Connecting People to Nature:**

- In the Detailed Description be sure to include the total number of visitors anticipated to attend/utilize the project site per year.
- If the project is achieving 1 unit via multiple funders, consider applying a portion of the 1 to Trust and Match Funded Outputs. For example, if the project is building 1 Boat Launch, 0.5 could be applied to Trust Funded Outputs and 0.5 to Match.

Activity Category	Activity Description/BMPs	Metric
Documents and Mapping	Mapping & Modeling	Acres Mapped/Modeled
	Plan	Acres Influenced
	Reports & Assessments	Acres Influenced
	Other	

**Documents & Mapping:** For activities such as Plans or Reports & Assessments manually enter the type (i.e., Livestock Management Plan) in the Detailed Description.

Activity Category	Activity Description/BMPs	Metric
Events	Cultural/Ceremonial Activities	Number of People
	Meetings	Number of People
	Seminar	Number of People
	Tour	Number of People
	Training Event	Number of People
	Volunteer Stewardship	Number of People
	Workshop	Number of People
	Other	Number of People

Activity Category	Activity Description/BMPs	Metric
Signs	Cairn	Number
	Property Signs	Number
	Trail Sign - Directional	Number
	Other	Number

Activity Category	Activity Description/BMPs	Metric
Other		

**Other:** this selection is to be utilized when the other selections offered do not properly represent the activities proposed. If selecting this option, ensure sufficient detail is manually entered in the Detailed Description column.

**Note:** If you discover that the workplan options do not fit your project activities, [contact your Grants Associate for support](#).

## TABLE D. PROJECT OUTPUTS:

The Project Output table copies project outputs directly from the Project Workplan. This table auto-populates. If the outputs are not correct, ensure that all project activities are properly accounted for in the Project Workplan.

*Note: Reports will be reviewed in comparison to the outputs identified in this section.*

## SECTION 5: ADDITIONAL PROPOSAL INFORMATION

### Project Sustainability

Describe the required maintenance of the proposed activities during and beyond the length of the project agreement.

### Monitoring and Compliance

Please describe:

- Your monitoring plan/schedule
- Plan for landowner non-compliance

### Conservation Contracts

By applying to the Trusts, you are acknowledging that you will have written agreements in place with landowners on whose lands projects are occurring. Please contact the Trust Team if you have questions about this at [granting@mbhabitat.ca](mailto:granting@mbhabitat.ca)

*Note: Longer term lengths will be prioritized by the Trusts and are encouraged in order to ensure that the intended environmental goods and services are achieved.*

### Reporting Requirements

I acknowledge that all Trust funded, landscape-based projects are required to provide GIS shapefiles as part of final reporting. Final reports will be submitted to the required reporting platform as indicated by MHC. MHC also requires the applicant to report on match activities and funds (including landowner in-kind). All reports (including shapefiles) may be subject to audit. Please contact the Trust Team if you have questions about this. Final reports will be submitted to the required reporting platform as indicated by MHC.

### Organizational Experience and Key People

Describe how your organization's and/or your team's knowledge, skills, and expertise demonstrate your ability to complete your project. Please only describe experience or education relevant to this project.

### Project Partnerships

Provide the following:

- List of all collaborating partners
- Briefly describe how these groups will be involved in the project\*
- Contributions of each partner (financial and/or in-kind)

\*Please see Partnerships section of the [Guidelines](#)

*Note: Letters of Support from project partners are not required as part of the application. However, successful applicants may be required to submit letters of support as part of the contribution agreement, and/or a signed memorandum of understanding.*

Active effective partnerships are of interest to the Trusts. Partners may be involved in both the planning and implementation of the project. Organizations that are not eligible to apply directly to the Trusts may be identified in the application as project partners. Please see [Guidelines](#) for additional information.

*Note: Proposals that incorporate partners will be ranked higher in the partnership review section than proposals with single applicants.*

## Proposal Consultations

- Identify any individuals, groups, organizations, Watershed Districts, or provincial or federal government staff that are not partners that will be included in your project, and identify if consultations are completed or pending
- If community engagement is a focus of your proposal, you do not need to duplicate information that you have already included in your Project Workplan

## Recognizing Trust Funding

As highlighting funding recognition is important, please describe how the Trust's contributions to this project will be acknowledged (news releases, brochures, video, signage, etc). See [Guidelines](#).

## Communications

In this section, you'll describe how you plan to communicate about your project activities.

You may include:

- An explanation of how relevant data or information gathered will be shared
- What audiences you want to make aware of your project activities, and why
- Specific communications activities/deliverables that you will complete (e.g., press releases, technical papers, public presentations, brochures, video, social media, etc.)

## Project Liability

Identify liability concerns and where ownership of liability will lie (especially regarding construction projects). Tenure and public access should be addressed.

## Project Risks

Identify any risk factors that may affect the project and describe how these factors will be mitigated.

## Licenses/Permits/Approvals

Are any licenses, permits, or approvals needed to undertake this project? Describe your plan to acquire any required documentation.

## Sources Cited

If you have used other sources of information for your proposal, please list where you found them (website, etc.) including articles, reports, academic publications, names of local experts and/or Indigenous Knowledge Keepers, etc.

## Additional Information

Please provide any other relevant information not already captured above.

## SECTION 6: ATTACHMENTS

### Optional Attachments

- Supporting documents such as maps and site photos may be attached if applicable
- Provide a list of the filenames of each attachment and a brief description of the contents (if not evident from the filename)

Reviewers may not have time to review additional documents in detail; do not rely on attachments to provide critical details of activities.

# BEFORE YOU SUBMIT

## Reviewing

We suggest you review, download, save, and print your application before submitting it. You will not be able to edit it online after the proposal deadline.

The **Submit** button is your final step

- Select the Submit button which will automatically send your proposal directly to MHC. You will then receive a confirmation email. Please contact us if you do not receive this notification.

## Trust Fund Application Process Feedback

MHC will be seeking your input to develop the best process possible. A brief anonymous online survey regarding the grant application process will be distributed to proposal applicants after submission of the grant application. The survey will be anonymous, however your grant will not proceed to review until you have completed the survey.

## Thank you for your application to the Trusts.

If you have any questions, please contact your designated Grants Associate at 204.784.4350 (Toll free 1-833.323.4636), [granting@mbhabitat.ca](mailto:granting@mbhabitat.ca)

# NOTIFICATION AND REPORTING REQUIREMENTS

You may be contacted during the review process to provide additional information on your proposal. Once the review process has been completed applicants (both successful and unsuccessful) will be notified in writing.

If your project proposal has been approved, you will be contacted to sign a contribution agreement, which outlines the terms and conditions of funding, including reporting requirements.

**Please note that funding is not considered final until a final Contribution Agreement has been signed by the applicant and MHC.**

**No invoices can be submitted for project funding until the Contribution Agreement is signed.**

We work towards completing processes as soon as possible. Please note that the development of a contribution agreement is a shared responsibility and largely depends on the submission of all required documentation from applicants to the Trusts in a diligent and timely fashion.

## Each Contribution Agreement will require:

- Copy of organization's by-laws or a board resolution identifying signing authority for your organization
- New certificate of insurance evidencing the addition of MHC as an additional insured. Certificates of insurance evidencing the addition of Manitoba Habitat Heritage Corporation operating as Manitoba Habitat Conservancy are also acceptable
- Copy of organizational logo for the Conservation Trust to display on the MHC website as a Funded Project

## And may require a:

- Revised Project Budget, Project Workplan, and Project Output
- List of organizational board members
- Organizational annual budget
- Organizational financial statements (up to last three years if available and applicable)
- A signed memorandum of understanding between project partner(s) that clearly outlines the partner roles and responsibilities
- Letters of support or partnership (on the supporting organization's letterhead or a copy of an original email)
- Written confirmation of all funding sources
- A summary of proposal design, delivery, progress evaluations and anticipated results
- A budget forecast or cashflow. All of these components must be accurately completed before the agreement can be signed

All approved recipients are required to submit reports to MHC throughout the duration of the project as outlined in the Contribution Agreement (See [Guidelines](#) for Reporting Timelines). Payments are based on reporting, meaning that payments cannot be made until a report has been submitted, reviewed and deemed satisfactory. Reports are submitted to and reviewed by the Trust Team.

A final report is required once a recipient’s project is finished. The final payment will not be provided (minimum 20% holdback) until a final report has been submitted, reviewed and approved by the Trust Team. All successful projects are subject to a random audit.

### Procurement

Applicants are encouraged to conduct all aspects of the proposal, including items such as purchasing and travel, in a manner that demonstrates environmental conservation benefits.

## CT OBJECTIVE EXAMPLE TABLES

**Table 1. Writing SMART Objectives for the Project**

A SMART objective should be:	
<b>Specific</b>	It describes a specific action, behavior, outcome, or achievement that is observable
<b>Measurable:</b>	It is quantifiable and has outputs associated with it so it can be measured
<b>Achievable:</b>	It is realistic and attainable within constraints such as: availability of human resources and money; knowledge and skills of key participants; and, timeframe
<b>Relevant:</b>	It is tied to priorities of the funder and contributes to bringing about desired conservation outcomes
<b>Time-bound:</b>	It states the time-frame within which the objective will be achieved

**Table 2. Examples of stronger objectives<sup>1</sup>**

Objective Stronger Objective

Objective	Stronger Objective
<b>To plant 1,000 riparian trees/shrubs/ herbaceous vegetation</b>	To create a 1,000m <sup>2</sup> riparian corridor and link two ecologically significant habitats for local native fauna transit by the end of 2023
<b>To install infrastructure so that people can access the Turtle Island Greenway and increase conservation awareness</b>	To increase the awareness of an estimated 500 people visiting the Turtle Island Greenway on the environmental and cultural significance by posting an interpretive sign at the entrance (average 1000 visitors per year) by the end of the summer of 2023

<sup>1</sup> Adapted from: <http://www.environment.nsw.gov.au/resources/grants/11846MEgoodob.pdf>; and from Foundations of Success 2009

# PART 2:

# GROW TRUST

## SECTION 1: GENERAL PROPOSAL INFORMATION

### **Proposal Title**

The proposal title from your approved Letter of Interest (LOI) will be copied over automatically. It is used to track your proposal throughout the granting cycle.

### **Proposal ID Number**

This is a unique project ID assigned by Trust staff.

### **Primary Contact**

Identify the name, title, and email of the person who will lead this project and will be the primary contact for communication purposes. This person's information should be listed in the Organizational Registration Form.

### **Proposal Author**

Identify the name of the author(s) who wrote this application, if different from the Primary Contact.

## SECTION 2: PREVIOUS GROW TRUST HISTORY

### **Previous Project(s) Status**

Do you have any previously funded projects that are delayed? If yes, please provide more information.

### **Total of Previous GROW Trust Grant(s)**

Enter the cumulative amount of GROW Trust grant(s) your organization has been awarded, to date (2020, 2021, 2022, and 2023 GROW projects).

### **GROW Trust Grant(s) Spent to Date**

How much of this granted GROW money has been spent to date (2020, 2021, 2022, and 2023 GROW projects).

### **Additional Comments**

If applicable, you may add additional comments regarding your previous GROW Grant(s).

## SECTION 3: EXECUTIVE SUMMARY

### GROW Program Activities

Identify the potential GROW activities that may be included. See the Provincial GROW Guide for examples of these activities [here](#).

Select all that may apply:

- Water retention
- Wetland conservation, restoration, or enhancement
- Riparian area conservation, restoration, or enhancement
- Buffer establishment
- Upland area conservation, restoration, or enhancement
- Innovative approaches

### Duration

Select the number of years (one or two) it will take to complete the establishment phase\* of the project.

*\*The establishment phase excludes the years of annual incentive payments. See the Guidelines for a detailed explanation of the establishment phase of a project [here](#).*

### Brief Proposal Description

MHC will use this description for communication purposes. Include your full organizational name and describe what your proposal will accomplish, including the **total** of the Trust and match funded estimated outputs (e.g. 500 acres restored), in 3 sentences or less.

*Note: If your project is successful, you may need to revise this description to reflect any changes in Activities or Objectives.*

### Total Trust Project Request

Enter the total funding amount requested from the Trust (including the Trust Funded Annual Incentive Payments portion).

(Total Trust Request = Trust Project Establishment Expenses + Trust Funded Annual Incentive Payments)

### Trust Project Establishment Expenses

Enter the establishment portion of the Total Trust Project Request.

(Trust Project Establishment Expenses = Total Trust Request - Trust Funded Annual Incentive Payments)

*Note: The Project Establishment Expenses are the costs to do the project. See the [Guidelines](#) document for a more detailed description of "Project Establishment".*

### Are Trust Funded Annual Incentive Payments included in this proposal?

If Trust Funded Annual Incentive Payments are included in this proposal, please click "yes" and another section labeled *Annual Incentive Payments* will become available to complete.

### Trust Funded Annual Incentive Payments

If applicable, enter the amount of Trust Funded Annual Incentive Payments of the total Trust Project Request.

(Trust Funded Annual Incentive Payments = Total Trust Request - Trust Project Establishment Expenses)

*Note: See the [Guidelines](#) document for a detailed description of "Trust Funded Annual Incentive Payments".*

**Total Match Funds**

Enter the total amount of matching funds, including cash and in-kind contributions.

*Note: Trust Funded Annual Incentive Payments **do not** require matching funds. Trust granted funds cannot be used as match for grant applications to the Trust. Other sources of matching funds that have been or will be used in full cannot be assigned to more than one Trust project.*

- The overall objective is a minimum match ratio of 2:1
- At least 50% of total match must be from non-provincial government sources

*Note: If your match ratio is lower than 2:1, you may still apply; however, amount of match in the proposal is a factor in ranking the proposal.*

**Total Project Budget (including match)**

Enter the amount of the total project budget.

*Note: (Total Project Budget = Total Trust Project Request + Total Match Funds).*

**SECTION 4: WETLANDS GROW TRUST****Temporary Wetlands**

By applying for Temporary Wetland Conservation (TWC) funding you are agreeing that you have read the GROW Guide and all relevant TWC content. Any applications received will be reviewed against the GROW TWC priorities. Applicants need to understand those priorities when applying for TWC.

*Note: Incentive payments specifically requested from the GROW Trust for temporary wetland conservation are specific to the Wetland GROW Trust and any significant deviations from the proposal requires approval by MHC.*

**Temporary Wetlands Incentive Payment**

Enter the total amount of Trust funding requested for Temporary Wetland Annual Incentive Payments (i.e. if \$40/acre over 10 years = \$400/acre).

**Temporary Wetland Acres**

How many acres of temporary wetlands will be secured with requested Trust funding? (enter the estimated acres).

**SECTION 5: ANNUAL INCENTIVE PAYMENTS**

**If available, please upload a copy of your incentive rate calculator.**

**What is the maximum GROW incentive rate for each activity?**

**How did you incorporate the following when determining each landowner's incentive rates:**

- Assessed land value
- Local land rental rate
- Agricultural capability
- Economic gain or loss on the enrolled acres (ex: hay and grazing income) for each landowner

## SECTION 6: DETAILED PROPOSAL DESCRIPTION

### Conservation/Watershed Plan

Is this proposal being delivered in the context of a larger conservation or watershed management plan?

**If Yes, please briefly identify:**

- The IWMP Goal, Objective and specific Action items addressed by your proposed project
- Describe how you will target your local GROW program to address these priorities (bullet list preferred)
- Explain how the deliverables link to implementation priorities of your IWMP (bullet list preferred)

### Innovative Approaches

Does this proposal include activities that are **not included in the district's IWMP** or the GROW Guide?

**If Yes, please identify and describe:**

- The activity, issue(s), or challenge(s) to be addressed
- The urgency/priority
- The risk of loss/conversion
- Any relevant justification that supports your proposal. This may include: scientific evidence, literature reviews, local expert and/or Indigenous Knowledge, etc

### Table Package

Please contact your Grants Associate with any questions, including how your proposed activities fit into the standardized Activity Categories.

**Table Package Guide:**

**Step 1:** Download the Spring 2024 Table Package, which includes the following tables:

Table A. Project Information

Table B. Project Budget

Table C. Project Workplan

Table D. Project Outputs

Table E. Project Incentive Payments

The Table Package is linked in the online application form or can be found on the MHC website, linked [here](#).

**Step 2:** Fill out table templates with the required information and once complete upload a copy as an Excel document in the online application form.

**Note:** *MHC recommends that the applicant save a backup copy of the Table Package.*

The following section provides detailed instructions for each table within the Table Package.

#### TABLE A: PROJECT INFORMATION

This table states general project information and provides broad suggestions regarding the use of tables.

**Project Information Guide:**

**Step 1:** Organization Name

**Step 2:** Project Name

**Step 3:** Project Start Date

**Step 4:** Project End Date

## TABLE B: PROJECT BUDGET

The Project Budget identifies the total projected costs to successfully complete the project. A strong budget will consider both costs associated with establishing project activities (i.e., Material & Supplies, Construction Services, etc.), as well as the cost required to deliver the project (i.e., Salaries & Benefits, Administration & Overhead, etc.).

### *Match Funds*

For general information regarding Match, including Trust definitions, examples, and ineligible sources and activities, see the Trusts - Spring 2024 Guidelines [here](#).

- Match includes both Cash Match (costs with a financial transaction) and In-kind Match (costs with non-financial transactions)
- The overall objective for the Trusts is a total match ratio (cash and in-kind) of 2:1
- No more than 50% of matching funds can be from provincial government sources
- Annual Incentive Payments from the GROW Trust **do not** require match
- Match funds may be received up to one fiscal year prior to the proposed start date, e.g. April 1st 2023
- For Audit purposes MHC requires Grantees (applicants who receive Trust funding) to keep a record of both cash and in-kind match in a similar respect they do Trust expenditures. See the Tools for Grantees section on the MHC website for examples of in-kind tracking forms

The Budget template is composed of Section A: Funding Sources, where all contributors to the project's revenue are listed and, Section B: Budget Categories, where all project expenditures are categorized.

### Section A: Funding Sources

**Step 1:** Provide a comprehensive list of project funding sources

**Step 2:** Indicate whether the funding is from the Manitoba Provincial Government

- MHC considers [Sustainable Canadian Agricultural Partnership/Ag Action](#) funding as 50% Provincial and 50% Federal
- For Watershed Districts providing their own match, **do not** list this as Provincial funding

**Step 3:** Indicate whether the funding is cash or in-kind by placing them in the corresponding column

**Step 4:** Indicate whether the funding is confirmed or pending

**Step 5:** Review Total Project Revenue and Total Match are correct

### Section B: Budget Categories

The Project Budget categories are divided into Direct Project Costs, Delivery Costs and Other Costs.

**Step 1:** Allocate project expenses to the applicable categories. See details below for budget category descriptions.

**Step 2:** Ensure the:

- Project Total Cost equals the Total Project Revenue in Section A
- Total Trust Request equals the Trust Amount in Section A

**Budget Categories - Direct Project Costs**

Direct Project Costs are capital and associated expenses that are direct costs required to complete the project. These may be Trust or match expenditures.

Budget Category	Description
Materials & Supplies:	Costs associated with construction, delivery, or establishment of the project such as seed, fertilizer, fencing, trees, etc.
Construction Services:	Costs such as contractors or equipment operators (including equipment)
Equipment Rental:	Costs such as machinery rental and rental of equipment owned by the applicant organization that is being expensed to the project
Consulting/Professional Services:	Costs such as consultants and legal fees
Acquiring Interest in Land (Match Only):	Include conservation agreements/easements and land acquisition. Land purchase costs may be included as cash or in-kind match
Landowners:	
Landowner Establishment costs	Costs that are borne by landowners, such as a purchase of seed, fertilizer, use of farm equipment, or labour, for which offsetting payments may be made by the grantee or may be included as landowner match
Landowner Annual Incentive Payments	Direct payments to landowners to encourage them to take part in projects that are expected to result in a loss of future income-generating potential from the land affected (e.g., cultivated land flooded by a wetland restoration). These payments are outlined in a contract between the Grantee and the incentive payment recipient

**Capital Expenditures/Equipment Purchases over \$5,000 (Trust related expenses only):** Please list and describe any equipment purchase greater than \$5,000 in the Budget Notes text box of the Project Budget. This refers to items with a per unit cost greater than \$5,000, not multiple, lower cost items whose total is greater than the threshold. Make sure to include these items in the appropriate budget cost category. For any questions regarding this, or any other Trust policy, contact your Grants Associate for support.

**Budget Categories - Delivery Costs**

Delivery Costs are the costs related to the management and delivery of the project.

Budget Category	Description
Salaries & Benefits:	The cost of staff that are tied to the project
Travel & Field Costs	Vehicle, accommodations, and meals based on 2023 Manitoba Government reimbursement rates which can be found on pages 65-71, <a href="#">here</a>
Administration & Overhead:	Applicants can identify overhead and/or administration fees that are related to project delivery. These may be match funds. All applicants are encouraged to minimize requests for administration fees. Examples of Administration & Overhead costs include Board expenses or charitable ArcGIS licenses
Communications:	Communication activities that are related to project delivery. Examples include radio, TV ads, social media, newspaper and magazine advertisements, and flyers, etc. Should not be calculated as part of a day rate

**Budget Categories – Other**

The Other Costs category is to be utilized only in the unique situation that a particular expense does not fit into any of the other available options. If you believe you may require use of this category it is recommended to discuss this with your Grants Associate.

**Additional considerations for budget and budget table execution:**

- Ensure budget details, such as Total Project Revenue, match those specified in the body of the application

**TABLE C: PROJECT WORKPLAN**

The Project Workplan documents all project activities and project outputs, as well as details their related cost estimates.

*Note: Salaries and Benefits, Travel and Field Costs, and Administration and Overhead costs to be included in the cost of each activity and not a stand-alone item. Communications should be identified in its own line.*

**Step 1:** Select the Activity Category option which best represents the output that will result from your proposed activity. Activity Category options are broken into two sections Section A. Landscape Activities and Section B. Additional Activities. For a list of Activity Categories see pages 26-31.

**Step 2:** Select the Activity Description/BMPs which depicts the specific activity that will achieve the Activity Category outcome. For example, if the project is enhancing grasslands through shrub mowing (1) select "Grassland Enhancement" under Activity Category, (2) select "Shrub Control via Mowing or Herbicide" under Activity Description/BMPs. For a list of Activity Descriptions/BMPs see pages 26-31.

**Step 3:** Manually enter the Detailed Description of each activity. This should include specific information that may set your project apart from other similar projects, potentially increasing the competitiveness of your proposed activity. An example of this would be if your project is doing a grassland restoration, what type of native grassland you expect to restore (e.g., Tall-grass Prairie, Mixed-grass Prairie) and any additional activities you are undertaking during the restoration process to ensure its success (i.e., weed maintenance).

If your activity relies on infrastructure such as, fencing, off-site watering systems, livestock crossings, etc., be sure to provide the details (including metrics such as km of fencing) in the Detailed Description.

*Note: Due to the increased emphasis on the Project Workplan there is no longer an expectation that the applicant restates this information in the narrative of the application. If outstanding details remain that you would like to share, please enter these in the Additional Information question of the application.*

**Step 4:** Identify the number of Trust Funded Outputs (e.g. "50" acres of wetlands restored). Note, these outputs will auto-populate the Project Output table. For a list of the required metrics see pages 26-31.

**Step 5:** Identify the number of Match Funded Outputs (e.g. "75" acres of wetlands restored). Note, like the Trust Funded Outputs, the Match Funded Outputs will also auto-populate the Project Output table.

**Step 6:** Identify (if applicable) the term length of the conservation contract you will sign with the landowner. For example, 10-year term contracts for grassland restoration projects. This is only applicable to Landscape Activities.

If working on previously conserved lands (e.g. habitat conserved through conservation easements/agreements), please clarify this in the Detailed Description column.

**Step 7:** Identify the cost-share of the payment to the landowner vs the landowner contribution. For example, 50:50 cost-share ratio for off-site water system installation. Consider adding other relevant details about the cost-share, such as the maximum funded amount. Only applicable to Landscape Activities.

**Step 8:** Manually enter the Estimated Amount of Total Project Budget that is required to accomplish the activity.

**Step 9:** Estimated % of Total Project Budget; This column auto-calculates.

**Step 10:** Manually enter the Estimated Amount of Total GROW Request that is required to accomplish the activity.

**Step 11:** Estimated % of Total GROW Request: This column auto-calculates.

**Additional considerations for budget and budget table execution:**

- If you require additional rows in the Workplan, **do not insert from the last row**. Instead, select a row from closer to the center to ensure auto-calculations work properly. If an error occurs, reach out to your Grants Associate for assistance.

## WORKPLAN ACTIVITY CATEGORY & DESCRIPTION/BMPS – REFERENCE LIST

### Section A: Landscape Activities

Activity Category	Activity Description/BMPS	Metric
Cover Crops	Multi Species	Acres
	Single Species	Acres

**Cover Cropping:** If your project includes cover cropping, identify (in the Detailed Description of the Project Workplan) if Trust funded cover cropping acres are with producers new to the practice. Additionally, clarify the type of cover crop e.g. full season or shoulder season cover crops.

Activity Category	Activity Description/BMPS	Metric
Erosion Control	Bank Stabilization (Riprap and other hardscape)	Acres
	Other	Acres

**Erosion Control:** This option is to be utilized when the erosion control site does not include any vegetation. It is only to be used for hardscape type erosion control. If vegetation activities are also occurring in conjunction with the hardscape enter the activity as Riparian Restoration instead of Erosion Control.

Activity Category	Activity Description/BMPS	Metric
Grassland Conservation	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/ Easement (Match Only)	Acres
	Other	Acres
Grassland Enhancement	Bufferstrips	Acres
	Delayed Grazing	Acres
	Delayed Haying/Mowing	Acres
	Grazing Management System (Fencing, off-site watering system, new water source development)	Acres
	Grazing Management System (Livestock Crossing)	Acres
	Invasive Species Control (Match Only)	Acres
	Pasture Improvement (Match Only)	Acres
	Pollinator Habitat	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPS	Acres
	Shrub Control Via Mowing or Herbicide	Acres
	Other	Acres
Grassland Restoration	Bufferstrips	Acres
	Native Restoration	Acres
	Pollinator Habitat	Acres
	Tame Restoration	Acres
	Other	Acres

**Grassland Enhancement through Grazing Management Systems:** In the Detailed Description provide details of which infrastructure (Fencing, Offsite Watering System, Livestock Crossing, New Water Source Development), or combination of, you are utilizing to achieve the Output. Ensure to include anticipated infrastructure metrics, such as km of fencing, or number of offsite watering systems to be installed.

**Species at Risk (SAR) Related BMPS:** In the Detailed Description, be sure to provide additional information regarding the SAR which are being targeted and the methods to be utilized.

Activity Category	Activity Description/BMPs	Metric
Landscape Activities Monitoring	N/A	N/A

Grantees are responsible to ensure all projects are monitored regularly over the life of the agreement to ensure that they continue to function effectively. This activity must reflect the estimated cost to complete the monitoring activities stated in your monitoring plan/schedule. Please ensure this is not included in the delivery costs for each activity.

Activity Category	Activity Description/BMPs	Metric
Riparian Conservation	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
Riparian Enhancement	Cattle Exclusion (Fencing and/or Off-Site Watering System)	Acres
	Grassed Waterways	Acres
	Invasive Species Control (Match Only)	Acres
	Livestock Crossing	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Other	Acres
Riparian Restoration	N/A	Acres

Activity Category	Activity Description/BMPs	Metric
Shelterbelt Establishment	N/A	Kilometres
Shelterbelt Enhancement	N/A	Kilometres

**Shelterbelt Establishment:** If known, include the number of rows being established in the Detailed Description. Establishment costs may include costs associated with maintenance activities (ex: weeding, mulching and watering) for a 3-year term after planting in order to ensure the success of Trust-funded shelterbelt projects.

**Shelterbelt Enhancement:** In the Detailed Description include the method(s) of enhancement and the number of trees being planted, if applicable.

Activity Category	Activity Description/BMPs	Metric
Water Retention	Extended	Acre Feet
	Permanent	Acre Feet
	Temporary	Acre Feet

**Water Retention:** If known, add the number of basins and acres in the Detailed Project Description.

**Extended:** Generally, retains water for an extended period of time after spring melt or a large rain event but may be partially or fully drained by late spring or early summer. Includes the added benefit of nutrient retention.

**Permanent:** Designed to drain only above full supply levels but may include overflow spillway. Can hold permanent water throughout the growing season. Includes the added benefits of nutrient retention, drought mitigation and groundwater recharge.

**Temporary:** Holds water for a short period of time after spring melt or a large rain event, for the primary purpose of flood water mitigation.

Activity Category	Activity Description/BMPs	Metric
<b>Wetland Conservation</b>	Other Wetlands Conserved Through Incentive Payments	Acres
	Temporary Wetlands Conserved Through Incentive Payments	Acres
	Wetlands Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
<b>Wetland Enhancement</b>	Cattle Exclusion (Fencing and/or Off-Site Watering System)	Acres
	Invasive Species Control (Match Only)	Acres
	Nest Tunnels Installation	Acres
	Nest Tunnels Maintenance	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Other	Acres
<b>Wetland Restoration</b>	N/A	Acres

Activity Category	Activity Description/BMPs	Metric
<b>Wooded Conservation</b>	Conserved Through Incentive Payments	Acres
	Conserved Through Conservation Agreement/Easement (Match Only)	Acres
	Other	Acres
<b>Wooded Enhancement</b>	Bufferstrips	Acres
	Invasive Species Control (Match Only)	Acres
	Pollinator Habitat	Acres
	Prescribed/Controlled Burn	Acres
	SAR Related BMPs	Acres
	Shrub Control Via Mowing or Herbicide	Acres
	Other	Acres
<b>Wooded Restoration</b>	Bufferstrips	Acres
	Pollinator Habitat	Acres
	Woodland	Acres
	Other	Acres

**Shelterbelt Conservation and Restoration:** If the project is conserving/restoring an already existing and established shelterbelt, include these acres (not km like shelterbelt establishment or enhancement) under Wooded Conservation and Restoration.

*Note: Activity Description/BMP – Other: this selection is to be utilized when the other selections offered do not properly represent the activities proposed. If selecting this option, ensure sufficient detail is manually entered in the Detailed Description column.*

**Section B: Additional Activities**

Activity Category	Activity Description/BMPs	Metric
<b>Communications</b>	Broadcast Media	Number of People Reached
	Internet Media	Number of People Reached
	Print Media	Number of People Reached
	Other	Number of People Reached

**Broadcast Media:** This category includes radio, TV ads and podcasts. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

**Internet Media:** This category includes social media, web pages and email blasts. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

**Print Media:** This category includes newspaper and magazine articles, brochures, flyers, etc. If activity specifics, including type, are known at application consider breaking down the number of people reached by type in the Detailed Description.

Activity Category	Activity Description/BMPs	Metric
<b>Communications General</b>	N/A	Number of People Reached

**Communication General:** this selection is to be utilized when the applicant does not yet have specific details regarding the type of communications they will undertake. If selecting this option N/A will be selected for the Activity Description/ BMP column and any known details should be manually entered in the Detailed Description column.

Category	Activity Description/BMPs	Metric
<b>Documents and Mapping</b>	Mapping & Modeling	Acres Mapped/Modeled
	Plan	Acres Influenced
	Reports & Assessments	Acres Influenced
	Other	

**Documents & Mapping:** For activities such as Plans or Reports & Assessments manually enter the type (i.e., Livestock Management Plan) in the Detailed Description.

Activity Category	Activity Description/BMPs	Metric
<b>Events</b>	Cultural/Ceremonial Activities	Number of People
	Meetings	Number of People
	Seminar	Number of People
	Tour	Number of People
	Training Event	Number of People
	Volunteer Stewardship	Number of People
	Workshop	Number of People
	Other	Number of People

Activity Category	Activity Description/BMPs	Metric
<b>Signs</b>	Cairn	Number
	Property Signs	Number
	Trail Sign - Directional	Number
	Other	Number

Activity Category	Activity Description/BMPs	Metric
Other		

**Other:** This selection is to be utilized when the other selections offered do not properly represent the activities proposed. If selecting this option, ensure sufficient detail is manually entered in the Detailed Description column.

*Note: If you discover that the workplan options do not fit your project activities, contact your Grants Associate for support.*

**TABLE D. PROJECT OUTPUTS:**

The Project Output table accumulates estimated project outputs directly from the Project Workplan. This table auto-populates. If the outputs are not correct, ensure that all project activities are properly accounted for in the Project Workplan.

*Note: Project Outputs shown in this table will be used to set the future project objectives within the database.*

**TABLE E. PROJECT INCENTIVE PAYMENTS:**

GROW includes annual incentive payments to landowners for the duration of the project. Annual incentive payments could be considered for projects where landowners have a loss of income due to the project and/or the natural areas in question are considered to be of high environmental value and are of high risk of loss. Details about estimating annual incentive payments can be found in the Provincial GROW Guide.

- Step 1:* Select the applicable Activity Category
- Step 2:* Select the applicable Activity
- Step 3:* Manually enter the Length of Time for the Incentive Payment (in years)
- Step 4:* Manually enter the Estimated Average Cost Per Acre
- Step 5:* Manually enter the Estimated Total Acres. This represents the sum of all acres which fall under this specific Activity
- Step 6:* Annual Cost per Activity (auto-calculates)
- Step 7:* Total Cost (over the incentive payment term) (auto-calculates)

**Additional considerations for Project Incentive Payment table and table execution:**

- Table is only to be filled out for Trust funded incentive payments
- If the project does not include incentive payments, leave blank

## SECTION 7: ADDITIONAL PROPOSAL INFORMATION

**Project Sustainability**

Describe the required maintenance of the proposed activities during and beyond the length of the project agreement.

**Monitoring and Compliance**

Please describe:

- Your monitoring plan/schedule
- Plan for landowner non-compliance

**Conservation Contracts**

By applying to MHC you are acknowledging that you will have written agreements in place with landowners on whose lands projects are occurring. Please contact the Trust Team if you have questions about this at [granting@mbhabitat.ca](mailto:granting@mbhabitat.ca).

*Note: As a demonstration of due diligence, grantees are encouraged to include a question on the landowner application form that requests the landowner disclose current or future partner funders on the same project.*

**Reporting Requirements**

I acknowledge that all Trust funded, landscape-based projects are required to provide GIS shapefiles as part of final reporting. Final reports will be submitted to the required reporting platform as indicated by MHC. MHC also requires the applicant to report on match activities and funds (including landowner in-kind). All reports (including shapefiles) may be subject to audit. Please contact the Trust Team if you have questions about this at [granting@mbhabitat.ca](mailto:granting@mbhabitat.ca).

**Organizational Experience and Key People**

Describe how your organization's and/or your team's knowledge, skills, and expertise demonstrate your ability to effectively complete your proposed activities. Please only describe experience or education relevant to this proposal.

**Project Partnerships**

Provide the following:

- List of all collaborating partners
- Briefly describe how these groups will be involved in the project\*
- Contributions of each partner (financial and/or in-kind)

\*Please see Partnerships section of [Guidelines](#)

*Note: Letters of Support from project partners are not required as part of the application. However, successful applicants may be required to submit letters of support, and/or a signed memorandum of understanding as part of the contribution agreement.*

Active effective partnerships are of interest. Partners may be involved in both the planning and implementation of the project. Organizations that are not eligible to apply directly to the Trusts may be identified in the application as project partners. Please see [Guidelines](#) for additional information.

*Note: Proposals that incorporate partners will be ranked higher in the partnership review section than proposals with single applicants.*

**Proposal Consultations**

- Identify any individuals, groups, organizations, Watershed Districts, or provincial or federal government staff that are not partners that will be included in your project, and identify if consultations are completed or pending
- If community engagement is a focus of your proposal, you do not need to duplicate information that you have already included in your Project Workplan

## Recognizing Trust Funding

As highlighting funding recognition is important, please describe how the Trust's contributions to this project will be acknowledged (news releases, brochures, video, signage, etc). See [Guidelines](#).

## Communications

In this section, you'll describe how you plan to communicate about your project activities.

You may include:

- An explanation of how relevant data or information gathered will be shared
- What audiences you want to make aware of your project activities, and why
- Specific communications activities/deliverables that you will complete (e.g., press releases, technical papers, public presentations, brochures, video, social media, etc.)

## Project Liability

Identify liability concerns and where ownership of liability will lie (especially regarding construction projects). Tenure and public access should be addressed.

## Project Risks

Identify any risk factors that may affect the proposal and describe how these factors will be mitigated.

## Licenses/Permits/Approvals

Are any licenses, permits, or approvals needed to undertake this proposal? Describe your plan to acquire any required documentation prior to the start of your activities.

## Sources Cited

If you have used other sources of information for your proposal, please list where you found them (website, etc.) including articles, reports, academic publications, names of local experts and/or Indigenous Knowledge Keepers, etc.

## Additional Information

Please provide any other relevant information not already captured above.

# SECTION 8: ATTACHMENTS

## Optional Attachments

- Supporting documents such as maps and site photos may be attached if applicable
- Provide a list of the filenames of each attachment and a brief description of the contents (if not evident from the filename)

Reviewers may not have time to review additional documents in detail; do not rely on attachments to provide critical details of activities

# BEFORE YOU SUBMIT

## Reviewing

We suggest you review, download, save, and print your application before submitting it. You will not be able to edit it online after the proposal deadline.

The **Submit** button is your final step.

- Select the Submit button which will automatically send your proposal directly to MHC. You will then receive a confirmation email. Please contact us if you do not receive this notification

## Trust Fund Application Process Feedback

MHC will be seeking your input to develop the best process possible. A brief anonymous online survey regarding the grant application process will be distributed to proposal applicants after submission of the grant application. The survey will be anonymous, however your grant will not proceed to review until you have completed the survey.

## Thank you for your application

If you have any questions, please contact a Grants Associates at 204.784.4350 (Toll free 1.833.323.4636), or [granting@mbhabitat.ca](mailto:granting@mbhabitat.ca)

# NOTIFICATION AND REPORTING REQUIREMENTS

You may be contacted during the review process to provide additional information on your proposal. Once the review process has been completed applicants (both successful and unsuccessful) will be notified in writing.

If your project proposal has been recommended for approval, you will be contacted to develop a contribution agreement, which outlines the terms and conditions of funding, including reporting requirements.

**Please note that funding is not considered final until a final Contribution Agreement has been signed by the applicant and MHC.**

**No invoices can be submitted for project funding until the Contribution Agreement is signed.**

We work towards completing processes as soon as possible. Please note that the development of a contribution agreement is a shared responsibility and largely depends on the submission of all required documentation from applicants to MHC in a diligent and timely fashion.

## Each Contribution Agreement will require:

- Copy of organization's by-laws or a board resolution identifying signing authority for your organization
- New certificate of insurance evidencing the addition of MHC as an additional insured. Certificates of insurance evidencing the addition of Manitoba Habitat Heritage Corporation operating as Manitoba Habitat Conservancy are also acceptable
- Copy of organizational logo to display on the MHC website as a Funded Project

## And may require a:

- Revised Project Budget, Project Workplan, and Project Output
- List of organizational board members
- Organizational annual budget
- Organizational financial statements (up to last three years if available and applicable)
- Letters of support or partnership (on the supporting organization's letterhead or a copy of an original email)
- Written confirmation of all funding sources
- A summary of proposal design, delivery, progress evaluations and anticipated results

- A budget forecast or cashflow.
- A signed memorandum of understanding between project partner(s) that clearly outlines the partner roles and responsibilities

All of these components must be accurately completed before the agreement can be signed.

All approved recipients are required to submit reports to MHC throughout the duration of the project as outlined in the Contribution Agreement. Payments are based on reporting, meaning that payments cannot be made until a report has been submitted, reviewed and deemed satisfactory. Reports are submitted to and reviewed by the Trust Team.

A final report is required once a recipient's project is finished. The final payment will not be provided (minimum 20% holdback) until a final report has been submitted, reviewed and approved by the Trust Team. All successful projects are subject to a random audit.

## **Procurement**

Applicants are encouraged to conduct all aspects of the proposal, including items such as purchasing and travel, in a manner that demonstrates environmental conservation benefits.
